

THE SPIRIT OF OUR TEACHER **PAKAL VOTAN IS HAPPY**

Last March 21st, 2005 we held a ritual to honor our Mayan Avatar Pakal Votan at NUTUTUN River, whose waters descend from the temples of Nah Chan or Palenque at 6 in the morning with the rising of our Great Father Sun. Several members of the MAYAN COUNCIL OF PRIESTS AND ELDERS OF MEXICO, several representatives of COSMIC EDUCATION SCHOOLS, as well as many other Pakal Votan's followers and friends took part in this ritual. Of course this event aroused a great interest around the world.

Before the ritual, there was a brief explanation of why we were going to carry out this ritual before our Mother Nature, represented by the waters of this sacred river, NUTUTUN, and the sacred trees, and before the Great Father Sun with the participation of all the initiates who were present. Then there was another brief explanation about the importance of the Mayan Avatar Pakal Votan in this New Age and the way his Mayan teachings can guide us toward a good social change and lead us along the good cosmic spiritual pathway.

To start with the sacred ritual, all the Crystal Skull caretakers put their sacred skulls down near the shore of the river and other people also placed other sacred objects near the skulls. Next, the Mayan Council was introduced to all the attendees and the President Don Valerio Canché Yah gave a short speech expressing his happiness for the interest of all the participants in the sacred Mayan spirituality.

The Maya Lacandon priest K'IN GARCIA pointed out that we should request permission from all the living things that were with us even before we began the ritual. He quoted the wind, the stones, the water, the Great Father Sun, and the Mother Earth as examples of these. He also said that all these living things together make possible the great manifestation of life that allows us living pleasantly in this world.

After that the Mayan priest K'in Garcia and his son Ca Yum began the sacred ritual. K'in Garcia chose a flat stone to lit the sacred copal on. Then when the copal began to burn, he said some magic words in his Maya Lacandon language. This magic chant made me travel back in time and touched my Mayan ancestral memory which caused some tears come to my eyes.

The words of this priest were mantric and magic at the same time because I looked at all the attendees' faces from time to time and I am sure that they had been transported into another epoch, into another place, and into another dimension where the humankind could freely live their true spiritual law. It was that time when the human being had the category of Gods and not the grotesque cartoon the human beings have become today in this modern society of democracy.

Fortunately, we count on these Maya Lacandon brothers to keep teaching us their sacred rituals, to keep involving us in their magic mantric rituals, to keep rising our spirits and taking them into Pakal Votan's dimension, to keep praying for the humankind and all manifestations of life on our Mother Earth and also to watch the execution of the natural laws.

To continue with the ritual, we invoked the Father Sun by saying his magic name in the Mayan language, K'IN, 21 times in chorus. This mantra was divided in the following way, 7 to the Father Sun, 7 to the Mother Earth, and 7 to the whole humankind, without relegating the sacred crystal skulls that were participating with us in this sacred ritual to honor the teacher Pakal Votan and all the inhabitants of the universe.

The ritual went on being enlightened by the Universal Law of Hunab K'u and all the attendees. Then it was the moment for the sacred Crystal Skulls to be handed in to the Mayan Council of Priests and

Elders. Don Valerio Canché Yah and the Elder Hunbatz Men and some other members of the Mayan Council received the sacred Crystal Skulls that were brought to Mexico in order to be donated in presence of all the attending initiates who would witness this historical event.

Our sister Star Johnsen Moser handed in the first Crystal Skull to Don Valerio Canché Yah while saying that this skull was a donation from two Mystery Schools located in the United States of North America to the Mayan Council. These schools are the CAHOKIA MYSTERIES SCHOOL FOR COSMIC EDUCATION and the MYSTERIES SCHOOL OF NORTHERN CALIFORNIA whose directors are our sisters Star Johnsen Moser and Dawn Abel, respectively. Star Johnsen Moser also said that with this donation the Mayan people would retake the wisdom of the sacred Crystal Skulls.

Soon after that, our sister Jennifer Welch from South Africa handed in the other Crystal Skull to the Elder Hunbatz Men telling him that this sacred Crystal Skull was donated by Dr. Frank Loo from Hong Kong and that she felt very proud of having been the bearer of this skull while bringing it from such a distant land. By the way, this Crystal Skull was found together with other 12, to make a total of 13, in a cave located in the Himalayan Mounts, on the frontier between Tibet and China in Asia. This cave was occupied by a group of strange beings called the Dropas, who were probably the ones who left the 13 Himalayan Crystal Skulls in that place. One of these skulls had been chosen to be granted to the Mayan people.

After these sacred Crystal Skulls were handed in to the Mayan Council, as part of the ritual, it went on just as it had been programmed by the Cosmic Messenger Pakal Votan from his eternal dimension. As far as I know, the Mayan Council that took part in this initiation is the first of all the Mayan Councils that receives Crystal Skulls in a ritual. Besides, these skulls were handed in by two sisters who belong to the High Initiation. Maybe Pakal Votan chose them to do this sacred work in benefit of the Mayan Cosmic people.

Once we finish with this sacred ritual at NUTUTUN River, we moved to the temples of NAH CHAN, better known today as Palenque, to continue our sacred initiatic spring work. Here at the base of the sacred pyramid where the spirit of the great Mayan Avatar Pakal Votan dwells, hundred of initiates were already waiting for us. All of them were wearing white clothes, symbolizing the purity of the initiation. Then all the people who were present at NUTUTUN River got integrated into the same wholeness in order to invoke the spirit of our great guide of the New Age of Aquarius.

Once we gathered in front of the pyramid at the Mayan Temple of the Inscriptions and Gestation, where the spirit of our spiritual guide and teacher Pakal Votan rests, we started another ritual but with the participation of a lot more initiates. This time many people took turns to direct songs and prayers to honor Pakal Votan. It could be noticed that there were more foreigners than Mexicans, but this was understandable since most of the people are stunned by the Catholic religion. Fortunately, we still have priests like K'in García who can teach us how to awake our spirit in the Mayan wisdom and religion.

The sacred ritual dedicated to the Mayan Avatar Pakal Votan kept blessing the dimensional spirit of this teacher, but with the great difference now that there were hundreds of people directing their souls and bodies to the dimension where the great Mayan spirits dwell. That dimension where they await us and where we should get so that we can make it return to our Mother Earth by working together. This way, those spirits will join us in order to create the wished dimension together and let our Mother Earth evolve beyond this third dimension.

Fortunately, the Crystal Skulls have already arrived into these sacred Mayan lands and they will help us activate the Mayan temples and any human being who touches them. Then the human race will begin its evolution and will get ready to enter the New Age of Aquarius and the Cosmic Light. So the

ritual went on with the participation of hundreds of initiates, the Crystal Skulls that accompanied us, the skull caretakers, the great spirit of Pakal Votan, and all the spirits that dwell in the Mayan temples.

Once this initiatic ritual work in front of the sacred pyramid of Pakal Votan was over, we looked for a more private place, also with many Mayan temples around in the same area of Palenque, in order to hold our Cosmic Schools meeting and make plans for the future. Of course, this suggestion was also given by the Mayan Lacandon priest K'in García because according to him, the Mayan wisdom must keep educating the humankind with its cosmic teaching.

Many of the attendees gave their opinion about the importance of the New Universal Cosmic Education work. Hunbatz Men emphasized that we are the only ones that can offer and teach the true universal cosmic education as cosmic schools we are. Almost all the current education centers are good just to teach the humankind to serve the big corporations' machinery and the existent religious centers just educate the human being's spirit in the Jewish-Roman-Christian religion. This is how the human spirit evolved in a wrong way and made everybody become children of the Pope from Vatican City. They don't teach the human being how to develop a universal spirit able to watch over the wind, the water, our Mother Earth, and the Universe.

This way, our initiatic work to honor the Mayan Avatar Pakal Votan, the Messenger of Time who taught us how to do our initiatic work in the Mayan temples of Palenque, Chiapas, Mexico, came to an end. Finally, on behalf of the Mayan Council of Mexico, I want to thank all the participants for their attendance to this great ceremony in which we honored our Mayan spiritual leader Pakal Votan who will enlighten us with his Cosmic Universal wisdom in this New Age of Aquarius.

During our meeting 2 more Centers of Cosmic Education were created and they will soon send us their data. The directors of these new centers are Melissa Wallner and Gabriel Romero.

To conclude, it is worth mentioning that while our initiatic group was carrying out our mystic-scientific-religious work in the Mayan temples of Palenque, millions of other initiates from all over the world were doing their cosmic spiritual work in many of the other Mesoamerican spiritual centers of Mexico.

Among these sacred spiritual centers we can mention the following: Teotihuacan, Mitla, Chichén Itza, Dzibilchaltún, Tula, Xochicalco, Teotenango, Copilco, Sihunchén, and many others that were omitted on the news.
